Collect Tools And Supplies

Brush and whisk broom
 Vacuum cleaner, if you have one
 Detergent

1 pint of warm water in a pan

A pan of warm rinse water

2 soft cloths—you may use a
 brush in place of cloth for
 washing

Paper

Do The Job

If the furniture is covered with cloth . . .

Brush the furniture with a whisk broom or vacuum clean it.
Add 2 teaspoons of detergent to the pan with the pint of warm water.

Whip up thick suds.

Set pans on paper.

TEST for fading. Try cleaning a small place on the back. See if it fades. If it doesn't fade, go ahead like this . . .

Dip a brush or cloth in suds.

Rub suds on furniture.

Clean only a small part at a time so suds do not soak in.
Then, rinse with a damp cloth.

Do NOT get the furniture too WET.

If the furniture is covered with plastic . . .

Wash a small place at a time.
Rinse and dry as you wash.

Issued October 1967
